

100% ALL NATURAL
FATWOOD
FIRESTARTER
INICIADOR DE FUEGO

THE ORIGINAL

The safer, simpler
all natural way
to start any fire.

Our Original Fatwood Firestarter™ sticks are the safe, non-toxic, 100% all natural firestarter made from the naturally occurring resin found in the stumps of pine trees. Fatwood Firestarter™ sticks start fast and burn hot, even when wet. 100% all natural with no chemicals or additives, it's the safer, simpler way to start any fire. Fatwood can go where you go – ideal for fireplaces, chimeneas, wood & pellet stoves, firepits, campfires or emergency kits.

SCS Global Services is a leading provider of third-party environmental and sustainability certification, verification and testing. The SCS Salvaged Wood & Fiber™ verification recognizes responsible recovery of wood and other cellulosic biomaterial resources. Fatwood Firestarter has been verified under the SCS Salvaged Wood & Fiber™ standard for using 100% reclaimed material.*

We created the Three Tree Pledge, an ongoing tree planting initiative by Wood Products International in Central America, that plants three trees for every one that is harvested.

Attractively packaged, easily stored and displayed, our products and in-store displays attract attention in any retail environment. All Better Wood Products® are individually UPC barcoded, as well as master carton barcoded. We offer both private labeling and custom packaging to your specifications.
