

100% ALL NATURAL
FATWOOD
FIRESTARTER
INICIADOR DE FUEGO

The safer, simpler
all natural way
to start any fire.

Quick, safe and non-toxic, Fatwood FireDrops™ are made by repurposing the highly resinous sawdust waste from our 100% all natural Fatwood Firestarter™ and combining it with an organic paraffin wax binder. Fatwood FireDrops™ start fast and burn hot, even when wet. 100% all natural with no chemicals or additives, it's the safer, simpler way to start any fire.

Lightweight, compact and storage-safe, Fatwood can go where you go – ideal for fireplaces, chimeneas, wood & pellet stoves, firepits, campfires or emergency kits.

They're environmentally friendly too! In fact, all of our products are created with wood from non-endangered pine species and using sustainable yield forestry practices.

Attractively packaged, easily stored and displayed, our products and in-store displays attract attention in any retail environment. All Better Wood Products® are individually UPC barcoded, as well as master carton barcoded.

We offer both private labeling and custom packaging to your specifications.
